Prepare new CLEAN and WATER+AZIDE tubes
Start the cleaning procedure and record the cleaning steps in FACSDiva:

CLEAN
RUN + HIGH
arm to the side
wait 1 min
arm to the center
wait 10 min

1/2 tube

WATER+AZIDE
RUN + HIGH
arm to the side
wait 1 min
arm to the center
wait 5 min
< 500 evts processed

WATER+AZIDE
STANDBY + LOW
arm to the center

record the cleaning steps

Log off from FACSDiva and Windows
Refill the sheat tank with PBS + Azide
Replace the waste reservoir, in case it gets full (sound bip)

Thank you!
