All admitted applications were analyzed according to the following selection method, which was also indicated in the job advert:

- **Curriculum Vitae (50%)** based on the following criteria:
  - Executed and/or published scientific work, with special emphasis on areas related to the work plan (25%);
- Research experience and relevant knowledge in the area of the proposed work plan as described in the candidate profile (25%).

- Motivation Letter (10%) based on the following criteria:
  - Motivation and interest for the activities to be performed;

- Reference Letters (30%) based on the following criteria:
  - Merit of the candidate.

The analysis and discrimination of the only admitted candidate classification in the First Phase are presented in the table of Annex I.

Since the only admitted applicant didn’t obtain a score equal and/or higher than 50% he wasn’t selected for an interview.

Thus, unanimously, the jury decided that the sole candidate didn’t gather the necessary skills to proceed in the process and, consequently, to fulfill this position.
