Instituto de Medicina Molecular João Lobo Antunes (IMM) opened a call for a Postdoctoral Research Fellowship with the funding support from European Commission, through the research project “Exploring the hidden life of African trypanosomes: parasite fat tropism and implications for disease” (ERC- FATTRYP - GA771714 - H2020).

The ad was published at EraCareers Portal www.eracareers.pt on 4th June 2021 and also disseminated in IMM website. The call was opened from 22nd June until 5th July 2021 and during which the following applicant applied:

✓ Asma Ressaissi  
✓ Elena Antón  
✓ Martha Catalina Alvarez  
✓ Raquel Peixoto  
✓ Raúl Caballero  

On the 16th of July 2021 the jury composed by Luisa Figueiredo, Sandra Trindade and Fabien Guegan (all PhD’s), met to analyzed the application documents (-1-page motivation Letter written in English; - Detailed CV, including a list of publications, research grants, prizes and technical expertise; - PhD Certificate; - Name and Contact of two references) in accordance to the profile and work plan indicated in the job advert.

**Work Plan and Goals:** Trypanosoma brucei parasite has a complex life cycle adapting rapidly to changes in different host environments (nutrient availability, temperature, host defenses, etc.) for survival and function. Recently, Luisa Figueiredo lab has shown that adipose tissue is a major reservoir of Trypanosoma brucei parasites in a mouse model of African trypanosomiasis. This discovery raises several questions notably to understand why T. brucei parasite accumulates in adipose tissue and if adipose tissue environment is beneficial for the parasite survival and transmission. In this project, the postdoctoral research fellow will characterize the parasite-host interaction of tissue colonization during an infection by T. brucei parasites.

**Candidate’s Profile**
- PhD holder in Biology or similar field (degree obtained for less than 3 years);  
- Preference to candidates with previous experience in African Trypanosomes;  
- Excellent knowledge in computational biology, specifically in genomics and transcriptomics;  
- Experience in cell culture and in vitro cell assays;  
- Excellent knowledge in English, spoken and written;  
- International experience (congresses, courses, etc.);  
- Available to start immediately.

**Necessary Documents for Applications:** - 1-page motivation Letter written in English; - Detailed CV, including a list of publications, research grants, prizes and technical expertise; - PhD Certificate; - Name and Contact of two references. **The non-compliance with these requirements determines the immediate rejection of the application.**

**Selection Method:** CV and motivation letter (75%); and interview and references (25%)
CV (50%)
The analysis of the Curriculum Vitae took in consideration:
- PhD Degree in Biology or similar field (5%);
- Experience in African Trypanosomes (15%);
- Knowledge in computational biology, specifically in genomics and transcriptomics (20%);
- Experience in cell culture and in vitro cell assays (5%);
- International experience (5%).

Motivation Letter (25%)
The analysis of the Motivation Letter took in consideration:
- Interest and motivation for the proposed work plan (20%);
- Written English and communication (5%).

The analysis and discrimination of the admitted candidates classification in the First phase is presented in Annex I.

INTERVIEW AND REFERENCES (25%)
✓ Following this, the jury decided to invite for an interview the applicant Martha Catalina Alvarez. The interview took place on 19th July 2021 and it was based in the criteria indicated below:

a) Adequacy of the track record of the candidate to the work plan (5%);
b) Scientific curiosity and motivation for the proposed activities (5%);
c) Ease of communication and autonomy (3%)
d) High sense of organization and teamwork (2%);
e) Command of the English language (3%);
f) References (5%);
g) Immediate availability (2%).

The analysis and discrimination of the candidate’s classification in the Second phase and total classification is presented in Annex II.

Unanimously, the jury decided that the candidate Martha Catalina Alvarez fulfilled the necessary requirements for this position.

Lisbon, 21st of July 2021

Luisa Figueiredo

Sandra Trindade

Fabien Guegan
## ANEXO I

Fellowship Reference IMM/BIPD/14-2021
