Instituto de Medicina Molecular João Lobo Antunes (iMM) opens a call for one research fellowship under the project “The BioPlTTAR Platform for Harnessing germinal centre regulation for improved vaccines” (LGraca LaCaixa – 1494), with the funding support from “La Caixa” Banking Foundation.

The ad was published at EURAXESS Portugal Portal on 8th of March 2024 and also disseminated in iMM website. The call was opened from 11th of March 2024 until 22nd of March 2024 and during which the following applicant applied:

✓ Elvira Pequeno Leites
✓ Inês Margarida Chaves Santos
✓ Sania Rauf
✓ Zahidali khan

The applicant Sania Rauf was excluded because she did not submit all documents required in the job ad.

On the 28th March of 2024, the jury composed by Luís Graça (FMUL/IMM), Diana Matias (IMM) and Vanessa Morais (IMM) met to analyze the application documents (motivation Letter, detailed CV, BSc certificate, MSc certificate and contacts of 1 reference).

**Work Plan and Goals:**
- Functional assays of lymphocytic population, including metabolic function;
- Experimental data analysis and statistical workup;
- Oral (scientific conferences) and written (reports and publications) presentation of experimental results and data.

**Candidate’s Profile:**
- MSc degree holder in Biology, Molecular Genetics and related areas, and is enrolled in a PhD study cycle;
- Animal experimentation license granted by an entity certified by FELASA corresponding to category B;
- Competence in metabolic and mitochondrial function assays;
- Experience in tissue and cell culture techniques;
- Excellent knowledge of English, written and spoken.

**Necessary Documents for Applications:** - Motivation Letter; - Detailed CV; - BSc and MSc certificate; - Contacts of 1 reference. The non-compliance with these requirements determines the immediate rejection of the application. In case the applicant does not have yet the required degree certificate, a declaration of honor stating the conclusion of the necessary qualifications for the purposes of this process will be accepted and must be sent by the end date of the call.

**Selection Methods:** Curricular Evaluation (80%) and, namely: academic career and relevant publications in the area (30%); demonstrated experience in the areas identified in the candidate’s profile (50%); Motivational letter (20%).
Curricular Evaluation (80%)
The Curriculum Analysis took in consideration the following criteria:
- MSc degree holder in Biology, Molecular Genetics and related areas, and is enrolled in a PhD study cycle (20%)
- Animal experimentation license granted by an entity certified by FELASA corresponding to category B (20%)
- Experience in tissue and cell culture techniques (20%)
- Competence in metabolic and mitochondrial function assays D5 (10%)
- Academic career and relevant publications in the area (10%)

Motivation Letter and references (20%)
The Motivation Letter took in consideration the following criteria:
- Motivation letter (10%)
- References (10%)

The analysis and discrimination of the admitted candidate’s classification in the sole phase of this process are presented in Annex I.

At this stage, the selected candidate is the one with the highest score (Elvira Pequeno Leites).

Lisbon, 28th of March 2024
